CDOT PUBLIC MEETING

What: Westbound I-70 Mountain Corridor Highway Improvements Concept Development Process Public Meeting

When: Tuesday, March 14, 2017 from 5 p.m.-7 p.m.

Where: Clear Creek Recreation Center-98 12th Ave., Idaho Springs, CO 80452

CDOT invites you to join us as we gather public input on the Westbound I-70 Mountain Corridor improvement concept development process. As we begin the initial phase of this process, we want to understand community perspectives and needs around critical issues and the context of the corridor, including: environmental, historical, economic, recreational, aesthetic, etc.

The concept development process will help us identify improvements that could be considered - from the top of Floyd Hill to the Eisenhower Tunnels - as we transition into the Tier 2 National Environmental Policy Act (NEPA) process.

Info: For more information about this project, visit:

www.codot.gov/projects/i-70mountaincorridor/concept-development-process.

People who desire special accommodation and/or TDD Relay Service, please contact Lorena Jones, HDR Engineering, at 303-318-6294.
