Applicant Tips and Miscellaneous Information

- Be sure to put the job title you are applying for on your application.
- You should review the job announcement for the qualifications and explain on your application or cover letter how your background meets those qualifications.
- You need to include dates when describing your experience. Applications or resumes without this information usually do not pass the initial screening.
- If you held several positions while employed with one organization, please add a new work experience for each position.
- Applications may be rejected if incomplete.
- Temporary and part-time work should be detailed with how many hours you worked per week or per month.
- We may consider volunteer experience and count it if it is related to the job vacancy and you provide the amount of time spent. (Examples: 3 hours a week for 1 year, 4 days a month for 2 years, etc.).
