

## Animal Location Survey For GCART

The following survey is being conducted by the *Gilpin County Animal Response Team*. This team has been formed to assist emergency personnel with evacuation of large stock animals as well as smaller companion animals in case of wildfire, toxic spill or other natural or manmade disaster that may occur in Gilpin County. Please fill out and return this survey and assist us in helping you rescue your animals if you are not available to do it yourself! The results will remain confidential and only be used to assist crews in locating animals during an emergency situation. Please fill out and return to GCART, P.O. Box 333, Central City, CO 80427. If you have any questions, please call Vicki at 303-582-5214. If more room is needed, please list additional animals on a separate sheet of paper.

List each **companion** animal you have in your home or property. This includes cats, dogs, birds, reptiles, rodents, etc. List each **stock** animal currently residing on your property. If in a herd, please be as specific as possible as to the size of the herd. This includes horses, llamas, alpacas, cows, sheep, goats, etc.

I understand that this information will only be used by emergency personnel regarding evacuation of any of the animals on my property. By signing this survey, I, the property owner, give a GCART member or volunteer assisting with evacuation of animals full access to my property and house in order to remove animals in immediate danger during an emergency situation. I understand that any equipment available such as halters, lead ropes, kennels or other items that will assist in evacuating my animals may be used by the GCART personnel for my animal's rescue. I will hold no member of the GCART group or volunteer assisting with an evacuation responsible for any damage to my property, animals or any equipment that may be used for those animals. I also understand my animals will be housed at the Gilpin County Fairgrounds or other chosen evacuation center until I am able to make other arrangements for my animals' care. Small animals may be left up to 2 days, larger stock animals may be left up to 1 week after the evacuation is lifted. **PROOF OF OWNERSHIP WILL BE REQUIRED** to redeem any animal that is housed at the facility. Livestock owners will be required to have certificates or veterinarian paperwork; companion animals should have the same paperwork but in their case, something as simple as a photo of you taken with your animal or animals could be sufficient depending on the circumstances.
