

Setback Verification Form as required by Section 3.1 of the Gilpin County Zoning Regulations

Where building improvements are proposed to be within 10 feet of the applicable setback line, or where a setback variance was granted by the Board of Adjustment, a Setback Verification Form signed and stamped by a Colorado licensed PLS shall be required and approved before foundation footers (or their equivalent) may be poured.

I, _____, Professional Land Surveyor of the State of Colorado, field surveyed the subject site described as follows:

Survey results verify that the footprint of the proposed structure, including all proposed structural supports and appendages, is located as shown on the attached Gilpin County approved site plan or on the attached foundation location exhibit or ILC.
